PIADS Publications (Studies Using or Citing)

Articles

Articles Using the PIADS

- Traversoni, S., Jutai, J., Fundarò, C., Salvani, S., Casale, R., Giardini, A. (2018). Linking the Psychosocial Impact of Assistive Devices Scale (PIADS) to the International Classification of Functioning, Disability, and Health. *Quality of Life Research*. <https://doi-org.proxy.bib.uottawa.ca/10.1007/s11136-018-1973-6>.
- Tuazon, J., Jahan, A., and Jutai, J. (2018): Understanding adherence to assistive devices among older adults: a conceptual review, *Disability and Rehabilitation: Assistive Technology*, DOI: 10.1080/17483107.2018.1493753.
- Park, Jin, Kim, Dae-Woo, Park, Su-Kyung, Yun, Seok-Kweon, & Kim, Han-Uk. (2018). Role of Hair Protheses (Wigs) in Patients with Severe Alopecia Areata. *Annals of Dermatology*, 30(4), 505-507.
- Correia Martins, Pinheiro, Francisco, Domingues, & Silveira. (2018). Psychosocial impact of the manual and powered wheelchairs on the participation. What have age and time since diagnosis got to do with it? *Annals of Physical and Rehabilitation Medicine*, 61, E496-E497.
- Domingues, Silveira, & Pinheiro. (2018). Psychosocial Impact of powered wheelchairs on participation profile of their users. *Annals of Physical and Rehabilitation Medicine*, 61, E494-E495.
- Sandri, G., Gherardini, F., Anastasio, C., Bettelli, V., Bottini, A., & Mascia, M. (2018). THU0155 Customised construction of devices as integration of occupational therapy intervention in rheumatology by 3d printing technology and co-design: Further development and verification of long-term effectiveness. *Annals of the Rheumatic Diseases*, 77, 297.
- Tofani, Candeloro, Sabbadini, Lucibello, Figura, Fabbrini, . . . Castelli. (2018). The psychosocial impact of assistive device scale: Italian validation in a cohort of nonambulant people with neuromotor disorders. *Assistive Technology*, Assistive Technology, 27 April 2018. 10.1080/10400435.2018.1469553
- Cira Fundarò, Anna Giardini, Roberto Maestri, Silvia Traversoni, Michelangelo Bartolo, & Roberto Casale. (2018). Motor and psychosocial impact of robot-assisted gait training in a real-world rehabilitation setting: A pilot study. *PLoS ONE*, 13(2), E0191894. 10.1371/journal.pone.0191894
- Beaudoin, M., Lettre, J., Routhier, F., Archambault, P., Lemay, M., & Gélinas, I. (2018). Long-term use of the JACO robotic arm: A case series. *Disability and Rehabilitation: Assistive Technology*, 1-9. 10.1080/17483107.2018.1428692

- Keeler, L., Kirby, R., Parker, K., Mclean, K., & Hayden, J. (2018). Effectiveness of the Wheelchair Skills Training Program: A systematic review and meta-analysis. *Disability and Rehabilitation: Assistive Technology*, 1-19. 10.1080/17483107.2018.1456566
- Portaro, Simona, Calabrò, Rocco Salvatore, Bramanti, Placido, et al. (2018). Telemedicine for Facio-Scapulo-Humeral Muscular Dystrophy: A multidisciplinary approach to improve quality of life and reduce hospitalization rate? *Disability and Health Journal*, 11(2), 306-309. 10.1016/j.dhjo.2017.09.003
- Meibos, A., Muñoz, K., Schultz, J., Price, T., Whicker, J., Caballero, A., & Graham, L. (2017). Counselling users of hearing technology: A comprehensive literature review. *International Journal of Audiology*, 56(12): 903-908; 10.1080/14992027.2017.1347291.
- Vincent C., Gagnon D.H., Dumont F. & ADAMI Group. (2017). Pain, fatigue, function and participation among long-term manual wheelchair users partnered with a mobility service dog. *Disabil Rehabil Assist Technol*: 20:1-10; 10.1080/17483107.2017.1401127.
- Arthanat, S., Elsaesser, L., & Bauer, S. (2017). A survey of assistive technology service providers in the USA. *Disability and Rehabilitation: Assistive Technology*, 12(8), 789-800; 10.1080/17483107.2016.1265015.
- Yachnin, D., Gharib, G., Jutai, J., & Finestone, H. (2017). Technology-assisted toilets: Improving independence and hygiene in stroke rehabilitation. *Journal of Rehabilitation and Assistive Technologies Engineering*, 4; 10.1177/2055668317725686.
- Yachnin D., Finestone H., Chin A., & Jutai J. (2017). Can technology-assisted toilets improve hygiene and independence in geriatric rehabilitation? A cohort study. *Disabil Rehabil Assist Technol*: 10.1080/17483107.2017.1358303
- Sandri G., Bottini A., Franchi F., et al. (2017). Experimental use of 3d printing technology for the construction of devices as integration of occupational therapy intervention with rheumatoid arthritis patients (RA). *Annals of the Rheumatic Diseases* 2017; 76, 474.
